漫步星河系列

Stariver Series

漫步星河系列

Stariver Series

漫步星河系列（Stariver Series）是一款具有金属光泽效果，且更环保、更稳定的珠光颜料，可部分替代铝银浆、铝粉等铝基材产品。产品属于实色的干涉色，色彩更加鲜艳饱满，并具有丰富的光泽度。该产品基于其深度的底色，更能凸显出虹彩的色彩效果，及创新前沿的包覆技术，使产品呈现绝佳的色彩饱满度与均匀度，助力打造更为独特的色彩效果。

The Stariver Series is a pearlescent pigment with a metallic luster effect, which is more environmentally friendly and stable. It can partially replace aluminum base substrates such as aluminum silver paste and aluminum powder. The product belongs to solid interference colors, with brighter and richer colors and rich glossiness. This product is based on its dark base color, which can highlight the interference color effect, and innovative cutting-edge coating technology, making the product present excellent color saturation and uniformity, helping to create a more unique color effect.

产品特点	Product Features
原料来源于合成云母基材	The raw material comes from synthetic mica substrate
具有更佳金属光泽感与色彩饱满度	Has a better metallic luster and color saturation
不会产生渗色、分层，耐高温、具有极高的色稳定性	No color bleeding, no delamination, high-temperature resistance, and has extremely high color stability

产品 / Product	颜色 / Color	包装规格 / Package size
SR 81-W	未来银 Future Silver	样品/Samples, 25 KG
SR 81-R1	复古金 Retro Gold	样品/Samples, 25 KG
SR 81-R2	星黛红 Starry Red	样品/Samples, 25 KG
SR 81-R3	午夜紫 Midnight Purple	样品/Samples, 25 KG
SR 81-R4	东方蓝 Oriental Blue	样品/Samples, 25 KG
SR 81-R5	松柏绿 Pine Green	样品/Samples, 25 KG
